

HowTo29 - Example: How to resize a form to 12x24 - all properties

Vorher

The screenshot shows the Oracle Forms Runtime window titled "Company Personnel". The window has a menu bar (Action, Edit, Query, Block, Record, Field, Help, Fenster) and a toolbar with various icons. The form is divided into two pages: "Page 1" and "Page 2".

Page 1:

- Department:** A section with fields for "Number" (containing 10), "Name" (containing ACCOUNTING), and "Location" (containing NEW YORK).
- Personell:** A table with columns: Nr, Name, Role, Hire Date, Salary, Comm, Bonus.

Page 2:

- Personell:** A table with columns: Nr, Name, Role, Hire Date, Salary, Comm, Bonus. It contains several rows of data, including CLARK (MANAGER), KING (PRESIDENT), and MILLER (CLERK). Each row has a "Salary Grade" dropdown menu.

At the bottom of the form, there are buttons: "Salary Grades", "Show Hierarchy", "Save", "Discard", and "Exit". The status bar at the bottom shows "Datensatz: 1/?" and navigation buttons "<BSB>" and "<DBG>".

Nr	Name	Role	Hire Date	Salary	Comm	Bonus
7782	CLARK	MANAGER	09.06.1981	2450		
7839	KING	PRESIDENT	17.11.1981	5000		
7934	MILLER	CLERK	23.01.1982	1300		
7782	CLARK
